Additionally, 24-pin printers take less time to print and can handle thicker sheets of paper.

Dot Matrix Printers - Sears Sears has dot matrix printers. Shop a wide selection of dot matrix printers from trusted brands. Dot matrix printing - Wikipedia Dot matrix printing is the process of computer printing from a collection of dot matrix data to a device, which can be one of: Impact dot matrix printers non-impact dot matrix printers, such as inkjet , thermal , or laser printers. What is Dot-Matrix Printer? Webopedia Definition A type of printer that produces characters and illustrations by striking pins against an ink ribbon to print closely spaced dots in the appropriate shape. Dot-matrix printers are relatively expensive and do not produce high-quality output. However, they can print to multi-page forms (that is, carbon copies), something laser and ink-jet printers cannot do.

Advantages And Disadvantages Of A Dot Matrix Printer A Dot Matrix Printer is the oldest type of printer and one of the good examples of computer printer that prints by direct impact of an ink-soaked cloth ribbon against the paper. Much like the print mechanism of a typewriter, the printer head moves in an up and down motion or runs back and forth on the paper.
